# WE GREW THIS "TREE"

# FROM IT'S LEAVES WE GREW THESE "TREES"

NOW WE ARE READY TO MAKE  
THIS STREET...

...SEEN FROM THIS SPOT...

LOOK THE WAY IT DID...

BEFORE THE ELM BARK BEETLE  
CARRYING DUTCH ELM DISEASE  
KILLED OVER 300,000,000  
ULMUS AMERICANA...AMERICA'S  
MOST POPULAR SHADE  
TREE

# GROW-TO-ORDER

## GROW-TO-ORDER POLICY

Clones of famous “Herbie” are now available on a Grow-to-Order basis. You order (10) trees and we grow them to the size you indicate and ship them in the year you designate. Buying trees under the Grow-to-Order program reduces your Tree Budget first , because you pay only the price of a 3 ft. tree and sooner because you receive container-grown, street size trees which one person can plant in one hour with a pickup truck and a shovel.

## “HERBIES” COST LESS

- As a non - profit we furnish them at our cost.
- Trees are shipped in containers in which they are grown avoiding shock of digging and burlapping.
- At 50 lbs. one man with a shovel can plant “Herbie” in less than one hour.
- Comparable balled and burlapped tree weighs 125 lbs. requiring 2 men and a backhoe to plant it.
- Each “Herbie” is registered and comes with a 10-year warranty against Dutch elm disease.

## NO RISK INVOLVED

If your city/town has ordinances that do not allow you to pay for items before the year of delivery, Elm Research Institute will arrange with local service clubs to assume risk on behalf of the town.

## TREE SELECTION TABLE

Tree No.	Min. Tree Caliper	Min. Tree Height	Ship wgt. w/soil	Discount from published price based on yrs ordered in advance		
				3 yrs.	4yrs.	5 yrs.
1	1”	6 - 8 ft.	40 lbs.	10%	15%	20%
1.5	1.5”	8 - 10 ft.	40 lbs.			
2.0	2”	10 - 12 ft.	40 lbs.
